

Helvetica Health Care (HHC) is a broad-based health care company committed to supplying high quality, innovative products & technologies to manage health and improve the quality of life.

Our products range from human health to laboratory diagnostics and research products.

We reflect these values in our practices and approach to business, driven by our commitment to excellence, both in terms of product quality, our choice of partners and the service we give to our customers.

Life Science

Monoclonal Antibodies

Monoclonal Antibodies are powerful immunochemical tools useful in a variety of applications including ELISA, immunoblotting and immunohistochemistry.. HIV-1, HTLV I, HTLV II

Cellkines (Cytokines/Growth Factors)

CELLKINES are natural or recombinant human cytokines or growth factors. The source for all recombinant human cytokines is E. coli unless otherwise noted.

Oxidative Stress

Test kits and testing services for measurement and standardization of oxidative states.

Biochemistry

The list of biochemistry products represents approximately 1800 different items.

Real Molecular Biology

Extraction, purification and amplification of nucleic acids, buffers for electrophoresis, and molecular weight markers.

Purified Viral Lysates

Crude, infectious supernatants through sucrose purified lysates.

Special material

- HIV, HBV and HCV positive plasma
- Genotyped samples for HIV, HCV and HBV
- Negative plasma in EDTA or citrate
- High titre HBV samples – sub types ay and ad
- High Grade Human Serum - pooled or individual donors (Un pooled)

Serological Controls

SeraCon Run Controls are intended for use in assessing the performance of immunoassay test procedures for the qualitative determination of HBsAg, anti-HIV and anti-HCV.

Immunology

IMMUNO-TEK kits have been designed for the quantitative measurement of IgG, IgM and IgA from cell culture ascites and other biological fluids.

Western Blot Kits

Western blotting allows visualization of antibodies directed against specific viral proteins. Available for SIV

Culture fluid

Viral Culture Fluids (1.0 mL per vial)
Most viral culture fluids are accompanied by a TCID₅₀ titer value.

Virology – retro-tek kits

These quantitative antigen capture immunoassays detect viral antigen in research specimens including cell culture, serum and plasma. They are useful in monitoring viral cultures, purification procedures and biochemical behavior of the virus.

Quality Control / Quality Assurance

PCR-NAT Controls and standards

NATrol™ products are excellent standards for Nucleic Acid Testing (NAT), that control all steps in NAT testing including centrifugation, extraction, amplification and detection.

- Non-Infectious
- Refrigerator Stable (2-8°C)
- Quantitative

Live, tittered organisms - Bacteria and Microorganisms - Viral NATrol-Custom NATrol Nucleic Acid and Tests Standards - Panels and External Run Controls-Purified DNA - Amplification & Extraction Controls

Seroconversion Panels

. HIV, HBV, HCV, PCR
. Largest source of single donor unadulterated, asymptomatic, clinically diagnosed human reference material.

Reference & Custom panels

Custom OEM Panels-Clinical Validation Panels-Diagnostic Reference Panels-Misc Panels-Pre-post Seroconversion Panels-HBV Longitudinal Panels-HBV Vaccine Panels-HAV Vaccine Panels-Nucleic Acid Sensitivity Panels-Nucleic Acid Linearity and Quantification Panels

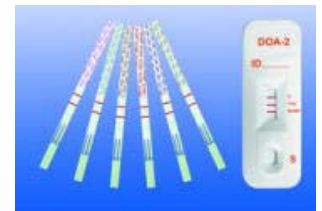

Diagnostics

Rapid tests

- Infectious diseases (CE marked and not)
- Women health
- Cardiac markers
- Cancer markers
- Enterics and Gastro intestinal
- General health

Drugs of abuse

LumiQuick and Boson's Rapid Drugs of Abuse test is an immunochromatographic assay to quickly detect illicit drug substances in human urine specimens.

Equipment

Autoblot 3000

The newly redesigned AutoBlot Western processor sets the standard for bench top processing. The AutoBlot 3000 provides the same accurate, highly reproducible results that you've come to expect from its predecessor, the AutoBlot 2000.

REAL ELECTROPHORESIS

Horizontal tank for DNA and vertical for proteins. Electrophoresis 2-D equipment, blotting and drying of gels. Power supply.

PROMOTION

We offer **10% discount** your first order!
Just mention our promotional code **PRO-1ST** when you contact us.
